

AF-600 Hot and Cold-Water System

DESIGNED FOR HEAVY USAGE
Extra High-Capacity Reverse Osmosis

- Bottleless Filtered Water Cooler
- Reverse Osmosis (RO) Filtration
- Smart Wheel Temperature Blend
- Hot/ Cold / Room Water
- Hot Water Safety Lock
- Water Level Indicator
- Mild Alkaline Capacity Plastic Tank with UV LED Light
- 16.0L Cold
- 4.0L Hot

Technical Specification

Model	CP-QR2001SB/SW	Cold & Room Tank	16.0L (4.23 gal)
Color	Black or White	Hot Tank	4.0L (1.06 gal)
Type	Freestanding	Rated Voltage	120V/60Hz
Weight	60 lbs.	Made in	South Korea
Dimensions	14.18"(W) x19.53"(D)x53.15"(H)	Dispense Area Height	7" (9" without tray)

Features

Cooling & Heating On/Off Switch

Individual power control to save electricity use

Safety Lock

Keep kids away from unexpected danger (Hot water lock)

5

Post Carbon or Natural 2.0 Filter

UV light.

Water Level Display

Indicates internal tank levels

Smart Wheel 3 Water Type

Hot/ Cold/ Room

Detachable Spigot

For easy wash

Plastic Water Tank

Quiet Operation

43 Decibel noise level

Water Level Display

Indicates internal tank levels

6 Stage Reverse Osmosis Filtration with Mineral

Reverse Osmosis Membrane Filter (RO)
Suitable for groundwater
Purify water to 99.9% clean water
Remove various bacteria and

Natural Plus Filter

Natural filter with charcoal and ceramic active carbon blocks germs and creates clean taste of natural water

Mineral eruption
Alkaline water to promote healthy body pH balanced

Hydrogen abundant to protect against ROS

LEVEL **1**

Sediment Filter

Removes impurities (rust, deposits, particles, moss, sand, etc.) up to 5µm.

LEVEL **2**

Pre Carbon Filter

Removes heavy metals, odors, color, organic substances, chlorine, THM, VOCs, and etc.

LEVEL **3**

Reverse Osmosis

Removes lead, chromium, fluoride, waterborne micro organisms and microbes up to 0.001~0.0001 µm.

LEVEL **4-5**

Natural 2.0

Supplies critical mineral electrolytes (Calcium - Magnesium - Potassium) to produce mild alkaline healthy water.
